FIREWIRE 6-PORT HUB

Connect your audio, video, and multiplayer gaming devices

Overview

The latest innovation from Belkin delivers six, peer-to-peer FireWire ports that support data throughput of up to 400Mbps. Our new FireWire 6-Port Hub connects seamlessly with your FireWire DV camcorders, web cams, FireWire storage devices, scanners, printers, and other DV-compatible multimedia devices. The Hub also acts as a FireWire repeater, so you can place devices up to an additional 15 feet (4.5 meters) from other connected FireWire peripherals. Connecting devices to the Hub using 6-pin to 6-pin FireWire cables enables them to draw power from the Hub, for even easier setup and operation.

Features

- Works for your iPod®, MP3, DV camcorder, webcam, PlayStation® 2 (PS2), and other FireWire® devices
- Delivers a full range of FireWire performance at speeds of up to 100, 200, and 400Mbps- depending on the capacity of your devices
- Connects multiple PS2 devices for head-to-head gaming
- Connects up to 6 FireWire devices
- Downloads files at speeds up 400Mbps
- Supports the Open Host Controller Interface (OHCI) standard
